

BIOPRO BIOLife Pendant

Your Personal Solution to Electropollution (EMF or EMR)

There is overwhelming evidence suggesting that the electromagnetic fields (or EMFs) emitted by all wireless or electronic devices have very significant biological consequences that are detrimental to our health. However, most of us are unaware of the gradually

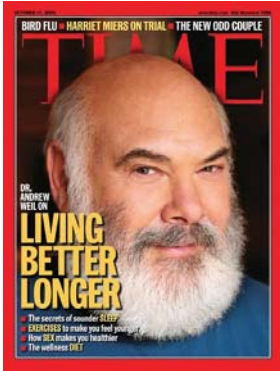

escalating health effects of EMFs. Invisible EMF Radiation flies

"under the radar" of our bodies early warning symptoms- the

physical senses that alert us to environmental health risks. We

can't see, feel, or hear the thousands of EMF frequencies that are

continuously bombarding every cell in our body. Andrew Weil, M.D. noted lecturer and best-selling, highly respected author of *Spontaneous Healing* and *Eight weeks to Optimum Health* is one of many health care professionals that are raising the EMF alarm...

Andrew Weil, M.D.

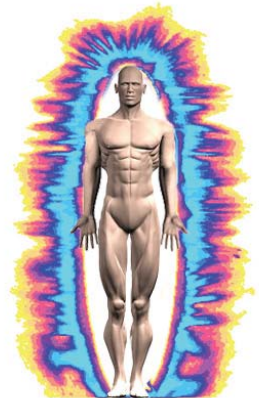

"Electromagnetic pollution (EMF) may be the most significant form of pollution human activity has produced this century, all the more dangerous because it is invisible and insensible."

Andrew Weil, M.D.

The BioField – the key to energy, wellness and balance

In 1994 the US National Institutes of Health (NIH) established the term "biofield." The biofield is an ensemble or matrix of different energies that extend outward from each person's body. According to the latest theories and research in biophysics, the biofield comprises many of the life energies critical to human wellness. These biofield energies regulate and balance multiple systems that range from the cellular to the whole person.

One of the key functions of the biofield is to enhance your ability to cope with stress. You need to be able to adapt to stress in a positive way, or it will have very negative consequences to your well-being and performance. Physical, emotional, mental and environmental stress can rupture the integrity of your biofield. The weaker your biofield, the less able it is to resist additional stress. When this happens, your life becomes a vicious cycle of "noise" and "static" which seriously compromises your ability to function. Many authorities, such as the Harvard Medical School, link chronic stress to a host of adverse health issues. Think of a resilient biofield as your protective force in a "stressed-out" world. The BIOLife Pendant restores and maintains the integrity of your biofield.

The BioField

What else does the BIOLife Pendant do?

The BIOLife Pendant ensures the biofields integrity. It "optimizes" and strengthens your external energy fields. Thus, the BIOLife Pendant fortifies your biofield against stress from all sources and enables you to maintain your balance and well-being.

- When your biofield functions optimally, your whole being functions more optimally.
- If disturbed, your overall balance is quickly reset, and imbalances quickly self-correct.
- Your body's innate intelligence is enhanced.
- Your body's natural ability to self-heal is strengthened.
- Your whole system reorganizes at a higher level of performance - one that is more robust in creatively adapting to stress.

How can something so small and subtle do so much?

An extremely weak field interaction occurs between the BIOLife Pendant and your biofield – but powerful enough to enhance it. This is accomplished via Energy Resonance Technology. Energy Resonance Technology is a proprietary process that allows your biofield to sympathetically resonate with the BIOLife Pendant. When you wear the BIOLife Pendant, it resonates with your entire biofield to maintain optimal strength, vitality and resilience in the presence of stress that threatens to damage and corrupt it.

BIO*Life* Pendant

#29263 BIO*Life* Pendant

Recommended retail price:

\$398.00 Australia

\$496.60 New Zealand

Q&As

- Q. When I wear the BIO*Life* Pendant, should the logo side be facing my body or does it matter?
- A. The Pendant can be worn either way. However, for maximum benefit the logo side should be facing away from the body. A less dramatic effect may be felt when the logo side is facing toward the body.
- Q. Can I wear the BIO*Life* Pendant in the shower?
- A. Yes, it is waterproof.
- Q. Will the BIO*Life* Pendant interfere with my pacemaker?
- A. No.
- Q. What will I feel when I start wearing the BIO*Life* Pendant?
- A. Most people feel happy, calm and focused. They feel less stressed and sometimes more energetic. Some sleep more soundly. Different people have different results.
- Q. If I feel uncomfortable when I first start wearing the BIO*Life* Pendant, what should I do?
- A. Take it off and put it in your pocket for one to two hours per day. Increase to three to four hours a day the following week. After 30 days your body will adapt to the BIO*Life* Pendant and you can start wearing it 24/7.
- Q. What if I don't feel any different in a few days of wearing the BIO*Life* Pendant?
- A. The BIO*Life* Pendant enhances the Biofield. This is something you don't always notice or feel immediately. We suggest you wear it for a month and then take it off for a day of two. You will then feel the difference.
- Q. Does the BIO*Life* Pendant contain a battery or any moving parts?
- A. No
- Q. How is the BIO*Life* Pendant charged?
- A. The BIO*Life* Pendant is charged in the Energy Elevation Chamber with BIOPRO's proprietary Energy Resonance Technology.
- Q. How does the charging process work?
- A. The proprietary nature of the charging process allows BIOPRO to charge all of its products. We do not share this proprietary information.

BIOPRO Technology Australasia Pty Ltd Customer Satisfaction Guarantee

BIOPRO Technology Australasia Pty Ltd stands behind the products sold by its Independent Consultants and wants you to be completely satisfied with your purchase. If for any reason you are not satisfied, your BIOPRO products will be replaced or exchanged without charge, or the full purchase price refunded, upon return of the product with proof of purchase to your authorised independent BIOPRO Consultant (or to BIOPRO Technology if your consultant is no longer active) within 30 days from the date of purchase or delivery.
